(4) Convent schools
77. Diphthongs are known as
(1) Pure vowels
(2) Semi vowels
(3) Vowels with weak sounds
(4) Vowel glides

UPRI

Directions : Read the given passage and answer the questions that follow (Q. No. 78 to 84) by selecting the most appropriate option.

Scientists are extremely concerned about the changes taking place in our climate. The changes are said to be alarmingly rapid and the result of human activity whereas in the past it had been natural and much slower. The major problem is that the planet appears to be warming up (global warming). This is occurring at a rate unprecedented in the last 10,000 years. The implications are very serious. Rising temperatures could give rise to extremely high increase in the incidence of floods and droughts, having effect on agriculture. It is thought that this unusual warming of the Earth has been caused by greenhouse gases, such as carbon dioxide, being emitted into the atmosphere by car engines and modern industrial processes. Such gases not only add to the pollution of the atmosphere, but trap the heat of the sun leading to the warming up of the planet.

It has been suggested that industrialized countries would try to reduce the volume of greenhouse gas emissions and plant more trees to create 'sinks' to absorb greenhouse gases.

78. The changes taking place in our climate have become :
- (1) a matter of celebration for the scientists.
 - (2) a matter of worry for the scientists.
 - (3) something that does not have any serious implication.
 - (4) something to be whiled away by the scientists.
79. The 'antonym' of the underlined word 'increase' is
- (1) increment (2) reduction
 - (3) smaller (4) rapid
80. The climatic changes taking place today are different from earlier changes as
- (1) Today they are slower and more natural.
 - (2) Today they are much faster and caused by the humans.
 - (3) Today they do not threaten the humans because of their speed.
 - (4) Today men are affected by them easily.
81. Increase in global temperatures may result in
- (1) rains
 - (2) destruction of crops
 - (3) death of animals
 - (4) a long period without rains

(9)

82. The underlined word 'slower' in the passage is
- (1) Noun (2) Verb
 - (3) Adjective (4) Adverb
83. Greenhouse gases refer to
- (1) emission of gases by the cars alone.
 - (2) emission of gases by the industries alone.
 - (3) trapping of heat of the sun by the earth increasing temperatures alone.
